Do we need a jaw dropping smiley? My jaw has dropped, followed by a smile. Wow!

Does this come included in something I'm already pledging? Or paid for? Or... screw it, it's just a donation anyway, paying what may or may not be extra to get the rest. Getting the Complete Pack. I know I have some or most of that already, but heck, \$35 for everything is a steal.

Fantastic as usual Kenney, as a pixel artist, it does make me a bit jealous how quickly you

I've been thinking about this for a while now, and I think I've found a way to make it work. I've been thinking about it for a while now, and I think I've found a way to make it work. I've been thinking about it for a while now, and I think I've found a way to make it work. :P

REALLY nice! Will you be adding some characters? Expanding this?

This is great Kenney!
very cool to see you playing around with a different style, and doing so well with it too!

I would love to see a darker, perhaps cave version of these tiles. They are a bit too bright to be a dungeon. Looks more like a desert ruin.

That's the magic of CC0. Modify them to your heart's content and release the new versions here.
